PROTECTED NO MATTER WHAT HAPPENS

The Airship Enterprise Management Server™

Airship EMS monitors all your Airship DVRs for failure and potential problems. If an Airship DVR goes offline, the EMS works with your video matrix to switch the analog video lines over to a standby Airship DVR. The standby system continues to record all video and will retain the recording data for at least seven (7) days, just like the front-line production Airship DVRs you normally rely upon.

Airship EMS is designed for maximum uptime, too. Dual power supplies and RAID1 mirrored hard drives run the operating system and Airship EMS services, so even the EMS itself can suffer an internal failure without losing functionality.

TECHNICAL SPECIFICATIONS

GENERAL All Components are RoHS Compliant

Input Voltage	115 VAC
Power Consumption	Maximum 350 watts Redundant dual power supply
Heat Output	1145 btu/hr
Operating System	Windows XP Professional
Operating Temperature	5° to 45° C (41° to 113° F)
Non-operating Temperature	0° to 55° C (32° to 131° F)
Operating Relative Humidity	8% to 90% non-condensing
Non-operating Relative Humidity	5% to 95% non-condensing
Dimension W x D x H	16.9" x 26" x 3.5" 430mm x 660mm x 89mm
Weight	38 lb / 17.2 Kg
Chassis Material	1.2mm sheet metal with ABS plastic parts

SYSTEM SPECIFICS

Motherboard	Intel® 3000 chipset
Processor	Intel Xeon 2.5GHz
Memory	1GB - 2x512MB DDR2 667MHz
CD-ROM	CD-R/W DVD+ -R/W dual layer
OS Hard Drives	Twin, mirrored (RAID1) Seagate 500GB SATA II
