

AIRSHIP KNOWS THAT ONE SIZE NEVER FITS ALL

BEYOND THE STANDARD PRODUCT LINE

Airship offers a sleek product line of enterprise-grade DVRs: The entry-level LD Series™ for those needing just a few cameras, the most cost-effective SD Series™ and the RAID-protected HD Series™ with a massive storage capacity of up to 7.5 TB and up to 48 channels.

We offer ready-to-ship preconfigured models of all our DVRs — those are the model numbers you see in our brochures and data sheets.

But that's not the whole story. It's not even the beginning. Airship is all about being flexible enough to meet the needs of unique customers and industry verticals as they evolve.

OUR ROOTS ARE IN CUSTOM SYSTEMS

Airship has a long history of providing custom hardware and software solutions to OEM customers. We base them on a careful assessment of performance and workflow needs. And this capability continues to serve new customers of any size.

TRUE FLEXIBILITY MEANS THE ABILITY TO PROTECT YOUR INVESTMENTS

For instance, Airship systems are preconfigured to integrate with the most common PTZ cameras, including the KTD-312, NiceCam, Pelco D, Pelco P, and Lilin PIH.

Does that mean that you're out of luck if you want to use other PTZ models with Airship? Absolutely not.

Airship can customize any of its DVRs to support any PTZ camera.

OUR SYSTEMS GROW OUTWARD — IN ANY DIRECTION

That goes for other external systems, too. In a fraction of the time it takes the large behemoth companies with offshore developers and layers of bureaucracy, Airship can tailor a system to meet any of your specialized needs.

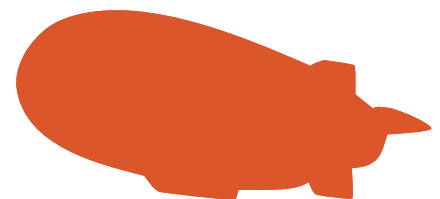

Beyond PTZ cameras, Airship can configure systems to support you:

- **Matrix switch**
- **Specialized surveillance and video management keyboard**
- **Alarm sensor relay switch**
- **IP camera**
- **POS system**
- **Other external system**

THE DVR OF YOUR DREAMS STARTS HERE

Airship will work quickly and effectively with your preferred systems integrator to design a system that meets all the needs of your particular surveillance environment.

Just let us know what you need!
